June 14, 1974

Professor Leonard M. Rieser
Dean of the Faculty
Dartmouth College

Dear Dr. Rieser,

Thank you for your letter of June 11 telling me of my reappointment as Professor of Biological Sciences for the summer term 1974-1975.

I am glad to have it official for next summer as well as this one. It makes for more efficient handling of the work this summer. And also I enjoy teaching the course, particularly in the summer term, a better time for a field course!

It seems that I may have a record enrollment this summer, and I have been practically promised the best of all possible assistants - Bob Deyle.

Thanks for welcoming me back. It is good to be under your aegis again.

Sincerely,

Hannah
