HELSINGFORS, FINLAND

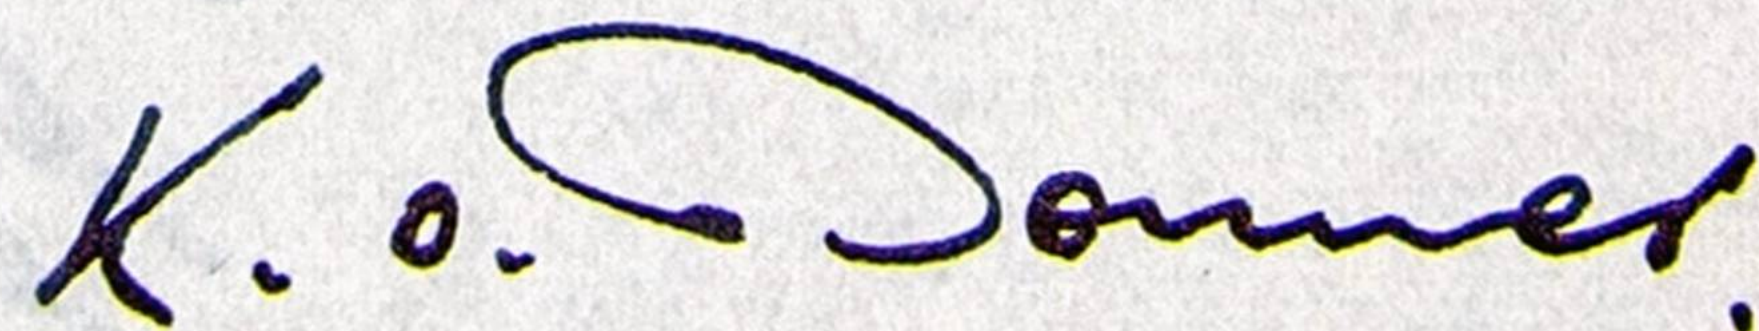

April 22d, 1968

Dr. Hannah Croasdale
Dartmouth College
Hanover, New Hampshire 03755
U.S.A.

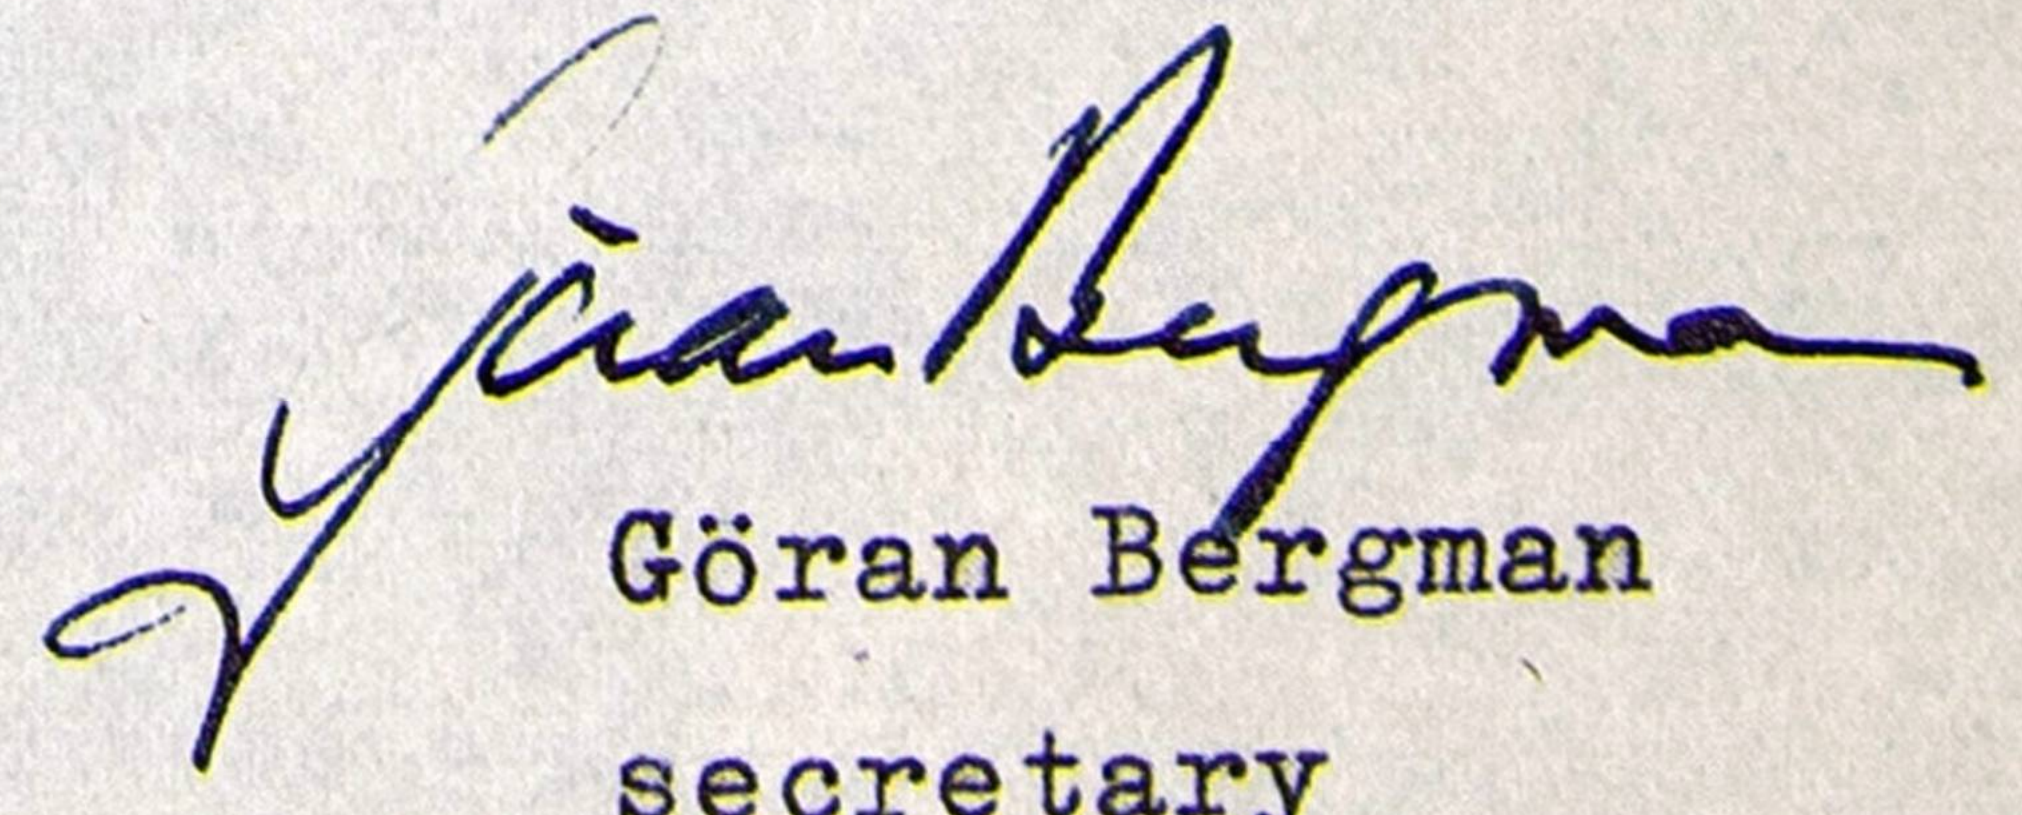

Dear Dr. Croasdale,

On behalf of the Societas pro Fauna et Flora Fennica we have the pleasant task to inform you that the Society on April 5th unanimously decided to elect you a foreign member. Finnish science is greatly indebted to you for the care and skill with which you have brought about the final revision and preparation for publication of the unfinished desmid studies by the late Dr. Rolf Grönblad and the late Mr. Arthur M. Scott. We are also aware, however, of your own distinguished work in the study of the algae of North America.

It would therefore be an honour for the Society if you could accept this membership as an expression of our gratitude and great esteem.

K.O. Donner
