June 2

Dear Dean Jensen,

Our talk yesterday left me with a much brighter outlook on things in general, and I'd like to say briefly how grateful I am to you, and how much I appreciate your kindness in giving me a real raise, and your consideration in calling me in to explain the situation about promotion.

It is good to have something to look forward to, both in the matter of my job and my research!

Thank you again,

Gratefully,

Hannah
