

DARTMOUTH COLLEGE
∴ Department of Zoology ∴
HANOVER · NEW HAMPSHIRE

May 12

Dear Dr. Reser,

Thanks very much
for the promotion! It came as
a complete surprise - and a
very welcome one. I had thought
I was in a dead-end, except
for my research.

With this promotion, and a
research grant, and a much
better office, life is far sweeter
than it was a few years ago!
All I crave now is to be allowed
to teach my own - scheduled - course
in Microtechnic and/or Algae. The
present status is discouraging.

But everything else is fine!

Thanks again

Hannah
