Building Call for Handicapped

FROM Mr. Chamberlain
TO Mr. Scotford (cc: Messrs. Dickey, Olmsted, Dickerson and Jackson)

This will acknowledge with appreciation Mr. Dickerson's response to your memorandum concerning the possibility of extending--or I would guess from your original, "expanding"--our willingness to bring to the Dartmouth campus crippled or otherwise handicapped students.

Al has hit most of the things I think we would have to be concerned about, although there are some other considerations.

I can only say now that the Admissions Office has always been willing to consider the application of any boy and tries to reach a judgment based on what is to his best interest when there is present a handicap which might have an affect on his college career.

We are always willing to discuss these issues and I'm willing to talk further in accordance with Al's last sentence.
